HFM US Quant Services Awards 2021

The HFM US Quant Services Awards will recognise and celebrate those service providers who have gone above and beyond over the past year to provide excellent client service and innovation.

Amidst the disruption and uncertainty caused by Coronavirus, funds are **looking towards their service providers and partners** to support them through the challenges that lay ahead. This means that separating yourself from your competitors and **demonstrating exceptional client service and innovation** is more important than ever before to **retain and win new business**.

This year's Awards will be presented virtually at the **HFM US Quant Summit 2021** on February 25 with **extensive marketing opportunities** offered to shortlisted and winning firms to ensure they maximise their success and use it as a **platform for future growth**.
